

Institute of Waste Management of Southern Africa

COOPERATION WITH OTHER ORGANISATIONS

The Institute of Waste Management recognises the need for co-operation with concerned organisations, which are not bound by affiliation to the government of the day, or party political doctrine and/or funding from any government agency.

It is desirable to be proactive in our relationship with such bodies and the Institute's designated portfolio team is tasked with forming links with organisations identified by the Council as being *bona-fide* champions of the environment.

- The Institute Council, having verified the credentials of any such organisation, will adopt a co-operative stance and where feasible, will assist such organisation in the realisation of its objectives, where they are complementary to our mission.
- The extent of such co-operation will be determined on a case-by-case basis.
- Individual Institute members may not commit the IWMSA to any course of action with respect to other organisations, without a minuted Council decision.
