Landfill Airspace Event in Gauteng **Wednesday, March 29, 2017**

Join the Institute of Waste Management of Southern Africa (IWMSA)'s Central Branch for a workshop on Landfill Airspace in Gauteng. The workshop will take place **10:00** at **Plastics SA in Midrand**.

The National and Provincial waste management strategy is very much geared towards waste beneficiation and diversion from landfill. The reality in Gauteng at the moment is that the vast majority of waste generated is still landfilled. The landfill as a waste management option, therefore, seems to still be a necessary reality at least for the immediate future, as plans for waste diversion from landfill and increased recycling are gathering momentum in Gauteng.

The requirement for airspace is consequently something that needs attention. Please join us at this workshop to discuss these matters with industry leaders.

Programme for the day:

10:00 Registration and refreshments

10:30 Status Quo of Landfill Airspace in Gauteng: Kobus Otto (KO&A)

11:30 Tea Break

12:00 Landfill airspace and plans for Increased recycling in Gauteng: Zingisa Smale (GDARD)

13:00 Representative from DEA - TBC

13:30 Questions & Answers

14:00 Closing

Costs:

IWMSA Members: R 100.00 (Excl. VAT)

IWMSA Non-Members: R 200.00 (Excl. VAT)

Mining Residue Workshop **Wednesday, May 24, 2017**

Join the Institute of Waste Management of Southern Africa (IWMSA)'s Central Branch for a workshop on mining residue. The workshop will take place on 24 May 2017 at 10:00 at Sibanye Platinum Recreation Club, Bleskop, Rustenburg.

Topic: Planning and Management of Residue Stockpiles and Residue Deposits: The Risk Based Approach.

The Department of Water Affairs recently gave permission that a risk based approach be followed when determining the barrier systems required for residue stockpiles and deposits. The risk based approach entails source-pathway-receptor modelling and the protection required for the ground and surface water resources based on the risk posed to the receptor. The main aim of the approach is to allow for the pollution control barrier system, required for residue stockpiles and residue deposits, to be determined on a case by case basis, based on a risk analysis conducted by a competent person. In this regard the Department of Environmental Affairs recently published proposed amendments to the National Environment Management: Waste Act providing for textual amendments to provide clarity, consequential amendments and transitional arrangements.

Please join us at this workshop to discuss these matters with industry leaders.

Costs:

IWMSA Members: R 100.00 (Excl. VAT)

IWMSA Non-Members: R 200.00 (Excl. VAT)

Please book by 12 May 2017, and make full payment by 15 May 2017.

Venue:

Sibanye Platinum Recreation Club, Bleskop, Rustenburg.

Recycling Event in Polokwane **Wednesday, June 21, 2017**

Calling Limpopo Members, collectors, waste generators, recyclers, potential SMME's

Kindly and generously hosted by **Mr Fanus Beytell of Anti-Waste**, the Institute of Waste Management of Southern Africa's (IWMSA) Central Branch invites you to an educational and informative recycling event tailor made just for you.

Purpose of this event:

Educating and informing you about the profitability of recycling.

Waste is part of our everyday lives, everything we buy and do generates waste. Why throw your waste away? It can actually be useful It can be re-used or recycled.

Current legislation emphasises waste avoidance, minimisation, reuse and recycling, consequently entrepreneurs in the waste collection industry play a critical role in the implementation of legislation.

Industry leaders from waste streams will be attending to present and discuss the following important matters.

Programme for the day:

09:00 - 09:30 Registration and arrival teas/coffee

09:30 - 09:40 Welcome and Introduction, Mr. Kobus de Meyer, IWMSA Central Branch Chairperson

09:40 - 09:50 Introduction to speakers, Ms. Belinda Booker

09:50 - 10:15 Ursula Henneberry, Operations Director, Paper Recycling Association of South Africa (PRASA):

- *Which papers are recyclable / which are not.*
- *Paper recycling best practice.*
- *How to maximize your earnings.*
- *Liquid carton recycling.*
- *Update on 2016 Paper Recycling Statistics.*
- *Tips on how to start a recycling collection business.*

10:15 - 10:40 Mr. Tshepo Malesela, Department of Economic Development, Environment and Tourism Limpopo (LEDET):

- *Polokwane Update.*

10:40 - 11:10 Tea Break

11:10 - 11:35 Innocent Godo, National Business Development Officer, The Glass Recycling Company (TGRC):

- *The glass recycling process from a collectors/entrepreneur point of view.*
- *How to identify which glass products can be recycled.*
- *Which glass products are not recyclable and why.*
- *How to identify buyers of glass in your area.*
- *Handling glass: best practice.*
- *How to maximize your earnings.*
- *Tips on how to include glass in your recycling collection business.*

11:35 - 12:00 Delanie Bezuidenhout (CEO: The Metal Packaging Association of South Africa : METPAC-SA):

- *Metal Matters.*
- *The collection and recycling of metal (steel and aluminium).*
- *How to identify steel products.*
- *How to identify aluminium products.*
- *The business case for recycling metals.*
- *How to maximize your earnings.*
- *Tips on how to include metals in your recycling collection business.*

12:00 - 12:25 Belinda Booker, Collections and Training Manager, PETCO:

- *How PET fits into the Plastics Recycling Value Chain.*
- *How to identify PET.*
- *How PETCO can help you.*
- *How to maximize your earnings.*
- *Tips on how to include PET in your recycling collection business.*

12:25 - 12:50 Jacques Lightfoot, Sustainability Manager, PLASTICS|SA:

- *The Plastics Recycling Value Chain.*
- *Polyco, Vinyls and Polystyrenene.*
- *How to identify recyclable plastic products.*
- *Which plastics are not recyclable and why.*
- *Plastics recycling best practice.*
- *How to maximize your earnings.*
- *Tips on how to include plastics in your recycling collection business.*

12:50 - 13:30 Lunch and Networking

13:30 - 15:40 Site visit to Anti-Waste. Fanus Beytell will provide an overview of the operational side of managing and starting a Buy Back Centre.

Costs:

IWMSA Members: R 100.00 (Excl. VAT)

IWMSA Non-Members: R 200.00 (Excl. VAT)

Please book by **15 June 2017**, and make full payment by **19 June 2017**.

Waste-to-Energy Workshop (and Webinar)! **Tuesday, November 21, 2017**

Join the Institute of Waste Management of Southern Africa's (IWMSA) Central Branch for a **Waste-to-Energy (WtE) workshop and webinar**. The workshop (and webinar) will take place on **21 November 2017** at **12:00** at the **BYTES Conference Centre in Midrand, Gauteng**.

South Africa's waste is in many ways a resource. The country's commitment to sustainable development requires that there be a balance between any new technological applications and the broader economic and social challenges, while also protecting the environment.

Waste reduction and prevention is of utmost priority. However, once waste is produced disposing of it in a sustainable manner becomes a priority. The need for sustainable waste disposal has resulted in a focus shift to energy recovery within both the municipal and private waste sectors. Many municipalities are currently undergoing feasibility studies to determine the best alternative waste disposal method to landfill. Considering the current energy crisis in South Africa (SA), WtE may be the ideal method:

- As an alternative to waste disposal by landfill.
- To generate sustainable energy.

Purpose of the event

The IWMSA's WtE workshop and webinar will focus on:

- WtE projects that have been successfully implemented in SA; projects that are currently operational and reducing waste to landfill.
- Projects that have gone through the feasibility process but failed to be executed, specifically focusing on the municipal environment.
- Carbon offsetting opportunities considering the probability of a Carbon Tax being initiated in SA. This will include discussions about carbon offsetting standards, the pricing of carbon around the world, and what it means for future projects in SA.

Costs:

IWMSA Members: R 100.00 (Excl. VAT)

IWMSA Non-Members: R 200.00 (Excl. VAT)
